Anatomic Pathology Division

The Solstas Lab Partners® Anatomic and Surgical Pathology Division provides comprehensive technical and professional pathology services covering all sub-specialties in Anatomic Pathology.

Solstas Lab Partners offers a highly specialized Women's Health program that delivers exceptional laboratory services focused in Obstetrics and Gynecology. Backed by a team of Board-certified pathologists with subspecialty training and Board certification in Cytopathology, Solstas Lab Partners is committed to providing unparalleled services to physicians and patients we serve.

Physician Office Services

Solstas Lab Partners understands the challenges with running a busy physician office and strives to find workflow solutions that provide real value to the physician, staff, and patient.

A Few of Our Solutions Include:

- Comprehensive IT support services
- Web-based test ordering
- Web-based result reporting and retrieval
- Expansive experience and demonstrated capabilities in EMR interfaces
- Web and phone connectivity options for Pap smear results retrieval
- Women's Health specialty representative
- Customized patient management reports
Clinical Recommendations for High-Risk HPV Testing:

- Test patients with ASC-US cervical cytology results to assist in the evaluation for referral to colposcopy.¹
- Use adjunctively with cervical cytology to test women 30 years and older to assess the presence or absence of high-risk HPV types.¹

Clinical Recommendations for HPV 16/18 Genotype Testing:

- In women 30 years and older, the test may be used adjunctively with the high-risk HPV test in combination with cervical cytology to assess the presence or absence of specific high-risk HPV types.¹
- Used adjunctively with the high-risk HPV test in patients with ASC-US cervical cytology results to assess the presence or absence of specific high-risk HPV types. The results of this test are not intended to prevent women from proceeding to colposcopy.¹

About Solstas Lab Partners

Solstas Lab Partners is one of the 10 largest full-service laboratories in the U.S., serving the Mid-Atlantic and Southern regions, as well as the District of Columbia.
